NEWS FOR VETERANS

Two important warnings for veterans and dependents of deceased veterans who receive monthly checks from the Veterans Administration were announced by VA. They are:

1. If a veteran or a dependent of a deceased veteran changes his address, he promptly should notify the VA office which handles his records, giving both the old and new address.

2. If a monthly check is lost or not delivered he should notify his VA office at once.

In writing to VA about such matters, veterans and dependents should identify themselves thoroughly.

"The best way to do this," the agency said, "is for the veteran to give his VA 'C' number, the number VA assigns to the claim and a dependent to give his 'XC' number. These serve as complete identification."

Under the law, the Post Office normally may not forward a VA benefit check to a new address.

VA also said that if a monthly check has not been delivered when due, the veteran or dependent should notify VA of the date it was due and the amount, giving his full name, correct address, and 'C' or 'XC' number.

If a veteran or dependent should receive a monthly check for an amount less or more than his regular check, the check should not be cashed but returned to VA for correction.

Take small tomatoes and hollow them out. Combine small shrimps, chopped cooked eggs and chopped cucumber mixed with a tart mayonnaise. Fill tomatoes with this salad mixture, chill in the refrigerator and then serve on lettuce cups. Add plate of finger sandwiches or potato chips and have a perfect luncheon combination.

If your nylon curtains have a tendency to "droop," give them a bath in permanent starch. A medium solution of starch gives satisfactory results. Avoid crushing and wrinkling the fabric as you launder the curtains. Never use extremely hot water.

The "brand-new" look can be added to the curtains by pressing them lightly with a steam iron.

Attention Dark Fired Virginia Growers

We have been requested by our main customer for Austrian cigar leaf grades to inform the grower of Dark Fired Virginia tobacco that during the coming season there will be a good demand for such grades. If the Dark Fired tobacco growers will make an effort to grow these cigar leaf grades up to the requirements of our customer, they will be paid prices above those of a year ago.

Our customer desires tobacco of brown to reddish brown color, with good spread, thin texture, running in length from 22 to 25 inches. This information is being given out at this time in order to enable the growers to know that a demand exists for this particular kind of tobacco, and to give them an opportunity to cultivate and top their tobacco, and to cure their tobacco as much as possible to the cigar leaf grades. The farmers are cautioned that when they strip their tobacco every effort should be made to keep it uniform in length and color. It will pay them well to do so, if their so-called Austrian leaf grades have the quality desired.

SAN JUAN RABBITS PROHIBITED IN VIRGINIA

The Commission of Game and Inland Fisheries has received a number of inquiries regarding the importation of San Juan rabbits which are being raised on an island in Puget Sound in the state of Washington.

According to C. F. Phelps, chief of the Game Division, this is the same rabbit that is found in Australia where it has done untold damage to crops and orchards in that country. The Commission, taking cognizance of the depredation habits of this species, has prohibited the importation into the state at any time for any purpose of the San Juan rabbitt. If this species of rabbit is brought into the state, it will be confiscated.
